

MyMathLab Registration Instructions MATH 107 – Precalculus

Important: If you used MyMathLab in Chisholm's MATH 103, you will NOT need a new access code. Instead, log into your account at www.mymathlab.com, click "Enroll in another course," and when asked, enter Course ID **deichert24523**

If you did NOT use MyMathLab in ASC 91 or haven't taken these courses at all, follow the directions below:

1. Go to www.mymathlab.com and under Register, select Student.
2. Enter your Course ID: **deichert24523** and click Continue.
3. On the next page:
 - If you **have used** a Pearson MyLab or Mastering product before, you can use your old username and password. Then verify your name and email on the next page.
 - If you don't remember your log in name or password, you can click "Forgot username or password" and have an email sent to you with this information.
 - If you **have not used** MyMathLab before, click "Create Account" above the blank spaces. Enter your personal information including a username and password that you will use every time you log into MyMathLab. (This information will be emailed to you for reference later.) Read the License Agreement and Privacy Policy and select "I Accept." After you've completed filling out the necessary information, click "Create Account."
4. On the next page, either register using an access code you bought at the college bookstore or buy access directly online. (The code that you bought at the college bookstore will look similar to this: PSSMC-FONDA-UPENDKANZU-CRUSH-TUNES.) If you buy access online, you will not enter an access code but will enter in your credit card or PayPal information instead.
5. Congratulations! You have successfully created your own MyMathLab account. Click "Log in now" to sign in and begin your assignments!
