

Scheduling Procedure for Great Western Network 2017-18 school year

Scheduling starts January 18, 2017 and ends with lock in numbers due by Friday April 21, 2017

Step 1: Take a look at the draft schedule on the GWN web site (greatwesternnetwork.com) Determine the courses that you would like to receive and/or the courses that your school would be willing to send. Email these requests to bill.strasser@k12.nd.us (Be specific; example – “We could teach Algebra II during ITV 3rd period” or “would like to receive Anatomy 2nd period”)

Step 2: As a starting point, the 2016-17 schedule is being used as the first draft schedule for the 2017-18 school year. (The draft schedule is constantly being updated on the GWN web site by the GWN director showing changes or confirmations requested by principals and/or counselors. *(Helpful Hint – start the process early... report changes or requests as often as you like, this helps others know what your school wants to teach or receive and others can adjust accordingly.)*

Step 3: Start right away in January with your best guess of the classes you want and where on the schedule you would like them. Lock in date is Friday April 21, 2017. “Locking in” student numbers is your best estimate of the number of students that you plan on having in each itv class for next year. (Be aware that your school may be charged the tuition students if these students don’t show up for class next fall)

Step 4: After the lock-in date, GWN will determine if there is adequate enrollment and contract with teachers and schools based on these lock-in numbers. If a class is dropped, you will be notified and have an opportunity to add other classes in its place.
