

Rebooting the Polycom

The location of the polycom in a GWN ITV full classroom is located on the lower far right side of the cabinet facing the students. (see arrow above - cabinet door has been opened)

Polycom 8000

Polycom 9000

Some sites have a Polycom 8000 (as per the picture on the left) and others have a Polycom 9000 unit. Please do not move the polycom unit when turning the system off and then back on again. The power switch is right in the middle of the 8000 units and on the lower right side on the 9000 units. (see red arrow) Push and hold for a few seconds until the light goes off. Wait 2 seconds and then press the button again to turn the unit back on. It will take about 3 minutes for the system to fully restart.
